

# FARGO

technology on your side

FARGO is flatbed machine with angle lifted print head. Screen lifting and carriage drive made with moto-reducer driven by frequency converter.

Traditional design structure, purely designed and manufactured by us with brand name elements used. Touch screen control with manual and automatic modes. Available two sizes: 50 x 70 cm and 70 x 100 cm. Possible configuration with automatic unloader and UV/IR tunnel.

Consist with operator's safety barrier and foot switch.

## Specification

### Lifting

- AC motoreducer with frequency converter

### Printing carriage

- AC motoreducer frequency controlled with adjustable speed
- 2 linear guideways
- adjustable prints stroke with out of range proof

### Pneumatic screen locks

- manual toggle switches on main pannel

### Registration

technology on your side

- registration accuracy at bearing point +/- 0,01 mm
- registration accuracy on pallet +/- 0,025 mm
- 3-axis micro regulation

### Squeegee and Flood

- independent controlled squeegee and flood with pressure and stroke adjustment
- squeegee and flood angle bracket adjustment

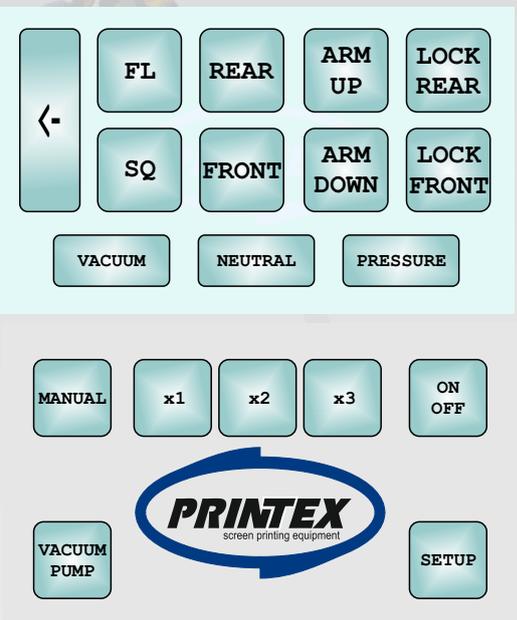

### Warranty and Service

- 2 year warranty
- after warranty servis with manufacturer parts stock

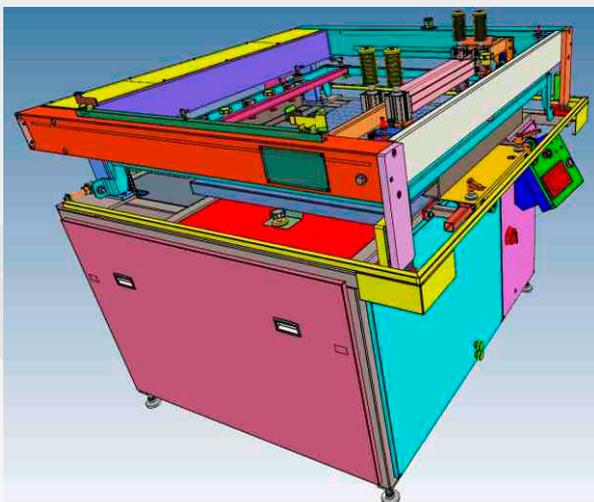

### Option

- FARGO size 70 x 100 cm

	FARGO 5070	FARGO 70100
Max. print speed	900 pcs/h	750 pcs/h
